Date November 16, 2005

Subject: Manco Talon Reverse Speed Limiter Override

Models Affected: Manco Talon 2WD and 4WD ATV's

Description: Manco Talon 2WD and 4WD ATV's are now being equipped with an override switch for the reverse speed limiter. This addition will allow the rider to suspend operation of the reverse speed limiter whenever the override switch is activated. The override switch is located on the left handle switch assembly and is labeled with the word "OVERRIDE".
